DETAILED ACTION

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 25, 26, 28-33, 35-40, 42-61, 65-69 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shindo of record for reasons of record in view of Miller et al. (Miller), U.S. Patent 5,154,757.

The Shindo patent discloses the claimed range of most of the impurities (see Abstract). The reference further discloses that the balance of the cobalt material is unavoidable impurities (see Abstract). The secondary reference is cited to show some of the other elements that can be included in the unavoidable impurities (see abstract and the table 1 in col. 5).

Accordingly, the invention as a whole would have been obvious to one having ordinary skill in the art at the time the invention was made to modify the disclosure of the cobalt material as disclosed in the Shindo patent with the teachings contained in the secondary reference, because the secondary reference discloses the ranges of other elements which are present as unavoidable impurities.

Response to Arguments

Applicant's arguments, filed 12/9/04, with respect to the rejection(s) of claim(s) under 103 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made as shown above.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will

the statutory period for reply expire later than SIX MONTHS from the date of this final action.
